The Pulse 1994

Rush Medical College

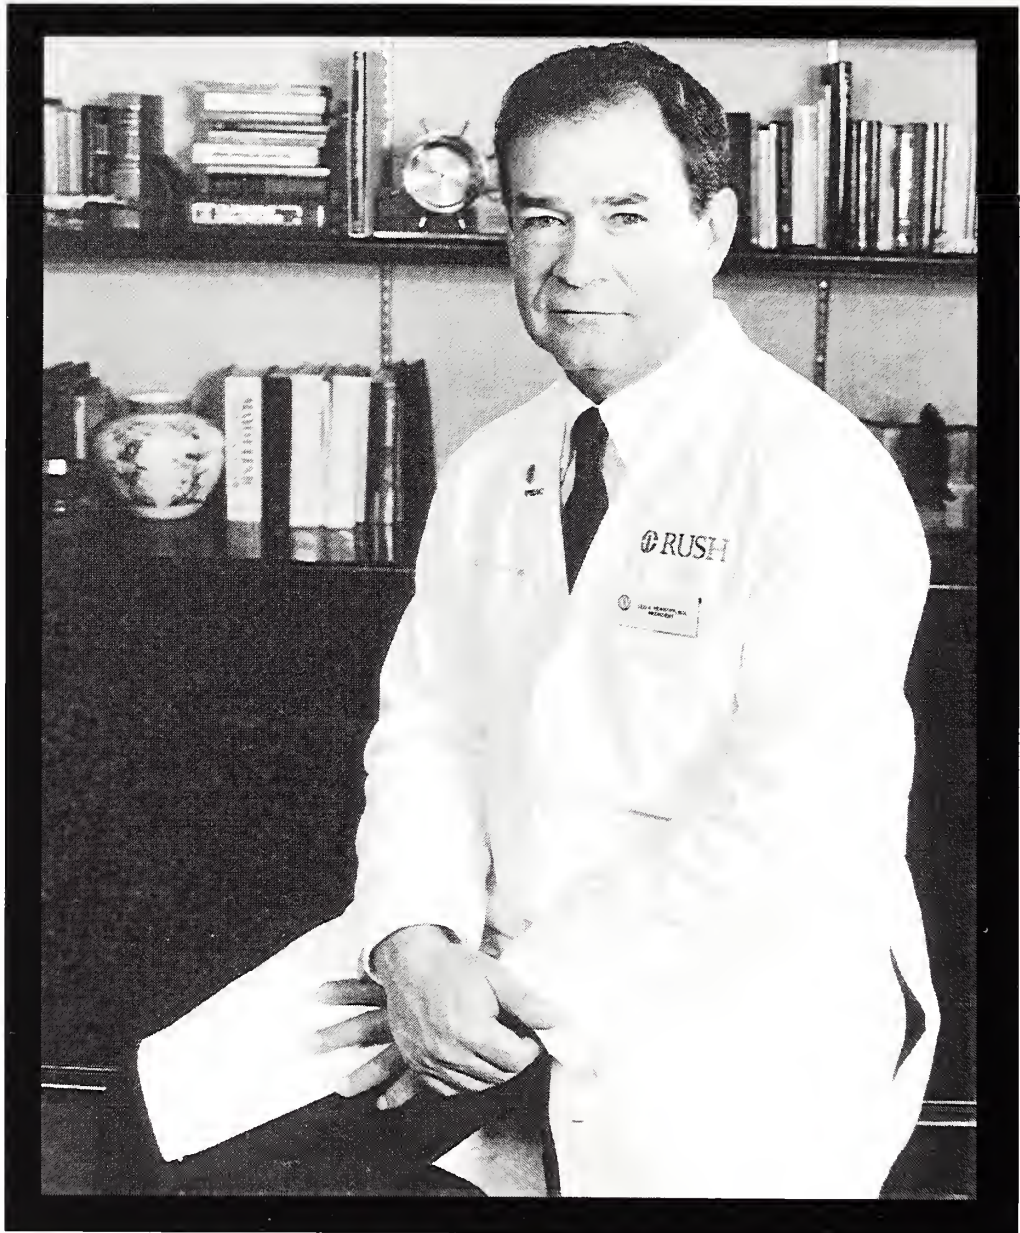

*To our parents for they were the
first to teach us love and
caring for others.*

*To our spouses, families, friends,
and significant others for the
love and support they gave us
through these last four years.*

*To our teachers for instilling in us a
sense of curiosity and a love
of learning.*

*To our fellow members of Rush
Medical College class of 1994
for the camaraderie which we
have enjoyed throughout medical
school as that is the essence of
what it means to be a colleague.*

*And most especially to our future
patients, may we continue to show
you the love and caring with which
we have been so richly rewarded !*

Leo Henikoff, M.D.

LEO M. HENIKOFF, M.D.
PRESIDENT
CHIEF EXECUTIVE OFFICER

May, 1994

To The Class of 94:

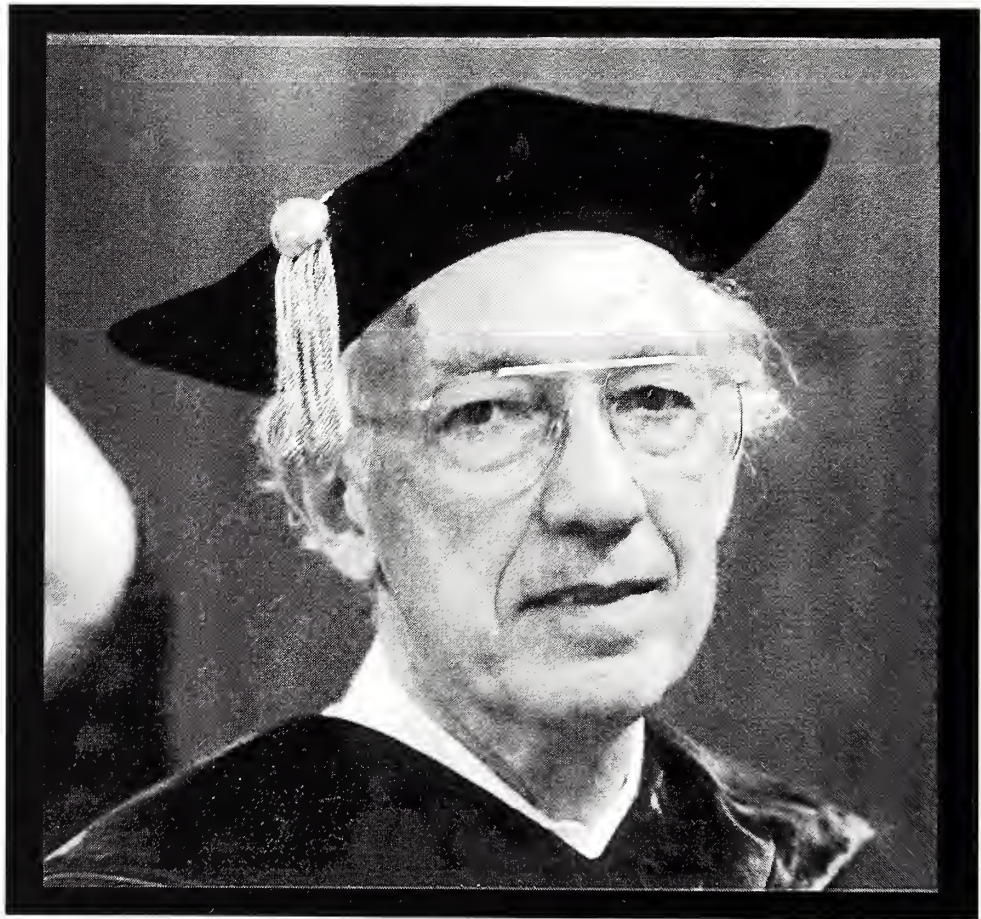

In 1969 Rush Medical College was reactivated and merged with Presbyterian-St. Luke's Hospital. Those of us on the planning and implementation team used to refer to what was happening as "an old idea that became new again." In essence, what we had in mind was the replication of the old idea that the best education of medical professionals takes place in an environment where patient care is the primary end, not a by-product. The historical precedent in our own case, of course, was the approximation of this ideal in the establishment of Presbyterian Hospital in 1883 by Rush Medical College faculty for the formation of future physicians in a patient care setting. It was then, and it is today, a philosophical approach to medical education that has made your own educational experience, if not unique, relatively distinctive. As you pursue your careers in medicine, we are confident that your appreciation of this patient-oriented experience will deepen over the years.

"The Pulse" yearbook is also an old tradition, and I am delighted that you are continuing it. It will undoubtedly be your companion over your professional lives, in the early years as a ready reference on your classmates, in later ones as a means of recreating the spirit and atmosphere in which your success had its origins. Guard it well.

With all good wishes, I am

Sincerely,

IN MEMORIUM

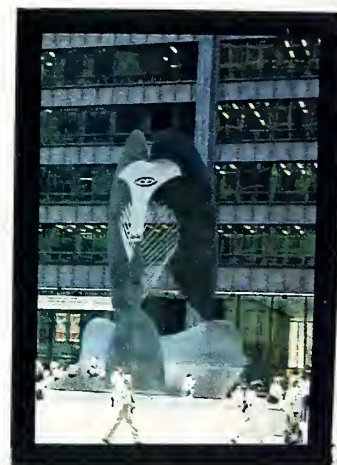

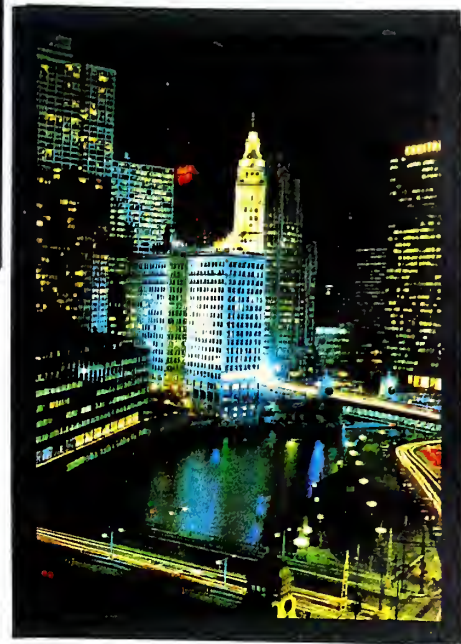

Anthony J. Schmidt, Ph.D.

Rush Presbyterian St. Luke's Medical Center

The Medical Center

Rush-Presbyterian-St. Luke's Medical Center is one of Chicago's oldest health care organizations. Its heritage extends back to 1837 when Rush Medical College was established. St. Luke's Hospital, founded in 1864, and Presbyterian Hospital, founded in 1883, merged in 1956 forming Presbyterian-St. Luke's Hospital. The merger of these pioneer institutions in 1969 created the present day Rush-Presbyterian-St. Luke's Medical Center.

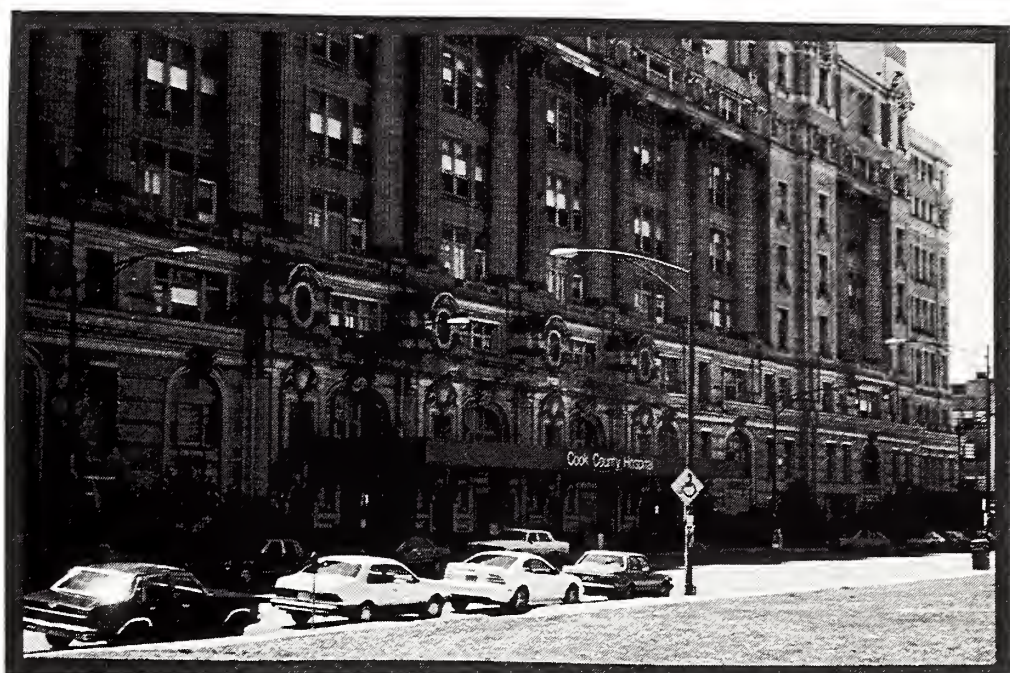

Rush University is named for Dr. Benjamin Rush, signer of the Declaration of Independence and the "Father of Modern Psychiatry."

EMERGENCY

THE DOCTOR
IS IN

RUSH REALITIES...

PSYCHIATRY - PSY 601

Absence Policy:

- Number of days allowed due to illness: 2 days
- Number of days allowed due to residency interviewing: 2 days - Students will not be allowed to interview on WEDNESDAY class days or at the time of the final exam.

→ What happens if you're only present for 2 days of the rotation?

A written examination is given during the last week of the clerkship. This examination is a compilation of medicine questions from Step II of the United States Medical Licensing Examination (passing: 3rd percentile, score of 290). The bulk of the grade is based on clinical performance. A superior (>600) or poor (<400) performance on the written examination will affect the final grade.

"The score on your written exam in no way influences your overall medicine grade."

Student Responsibilities on this Clerkship

- 1) Attend lectures and assigned conferences
- 2) Complete all written learning objectives
- 3) Work closely with residents on service in patient care
- 4) Work with assigned faculty preceptor, (Rush students only)
- 5) Take call as assigned

However, students should not be required to spend

- ① DO THE ADMISSION H&P
- ② PUSH 2 THE PATIENT FOR 7 HOURS
- ③ ALLOW THE SENIOR RESIDENT TO DO THE DELIVERY
- ④ BE GIVEN THE DUBIOUS HONOR OF DELIVERING THE PLACENTA & RETRIEVING UDD BLOOD GASES

should spend time reading about their cases as well, and should not be required to spend an inordinate amount of time with non-learning tasks that are normally duties of the housestaff.

→ You mean like shagging Xrays at 4 a.m.???

How will I know when my grades are in?

↓

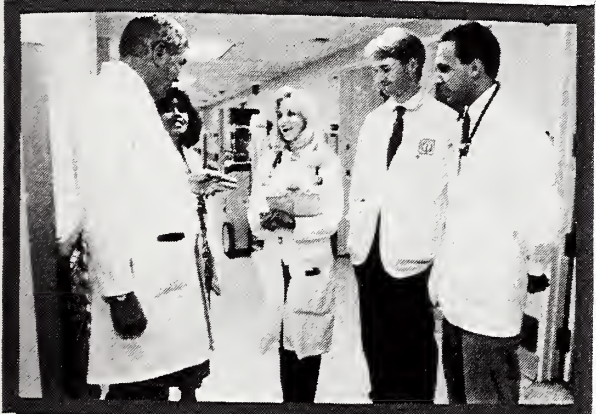

You won't!

In order to facilitate continuity in learning about and gaining experience in patient assessment and management, students are encouraged to accompany their patients who are having special diagnostic or therapeutic procedures (radiology, cardiac catheterization, pulmonary function, operating room). If patients are transferred to other wards (e.g., surgical), students are encouraged to visit them and to follow their progress.

→ Yeah Right!

PARTY

Senior Party
ARLINGTON
 MARQUEE ON THE GREEN

Wednesday, June 8

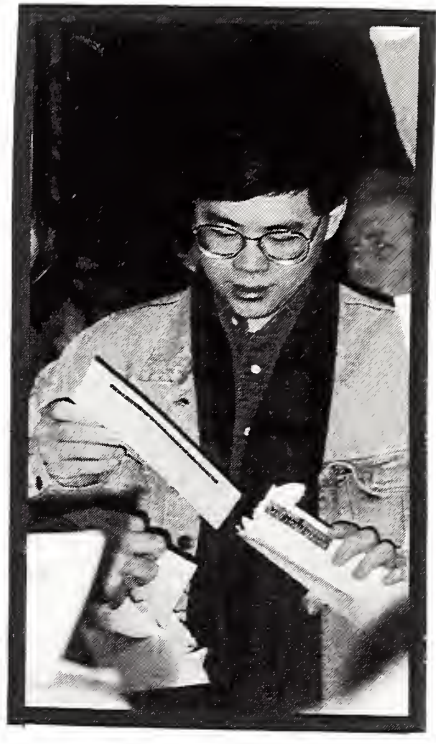

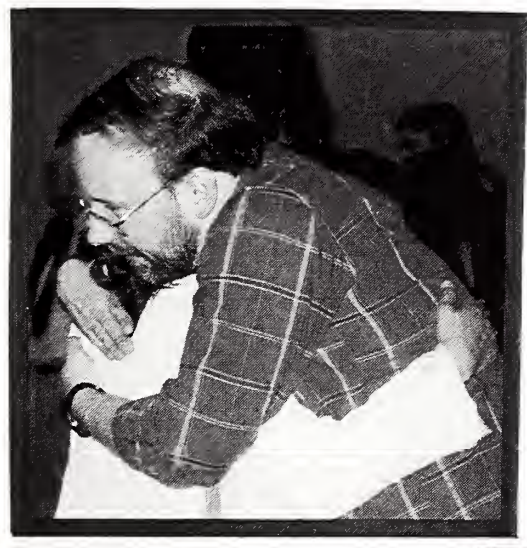

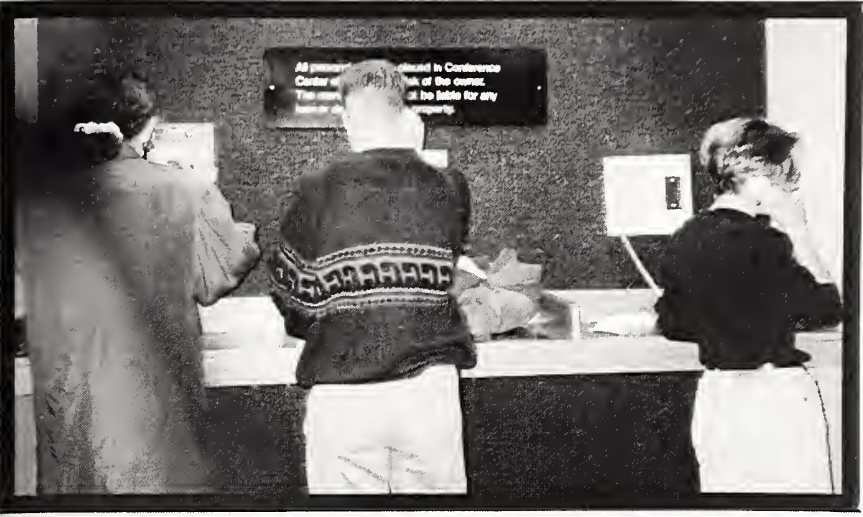

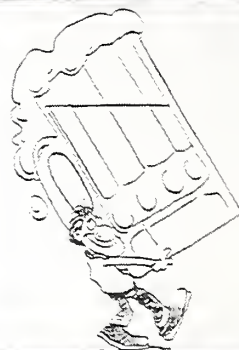

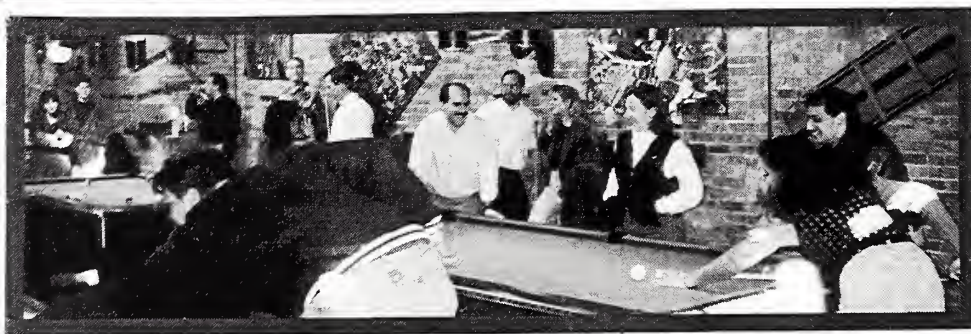

MATCH DAY AT RUSH

Match Day for fourth year medical students will be on Wednesday, March 16, 1994 in Room 500. We would like you to arrive in Room 500 by 10:30 a.m. At that time you will vote for faculty awards, place your order for commencement announcements, get measured for cap and gown (if you have not done so already) and pay for your senior class party.

After the match, you are invited to attend a party in your honor at Leona's Neighborhood Place, 1936 West Augusta.

150th Anniversary of Rush Medical College

The first building of Rush Medical College, 1844

Built of wood at the corner of Clark and Indiana, the college's first building cost \$ 3,500. It had a lecture hall, chemical laboratory, and a dissecting room. It was remodeled and enlarged twice, once in 1855 and again in 1867.

1867 addition to Rush Medical College

This addition to the college's building was much larger than the original structure. It was a large square building, with two lecture rooms, one above the other, with the upper one being an enormous amphitheater with 625 seats. There was a dissecting room and a modest chemistry lab.

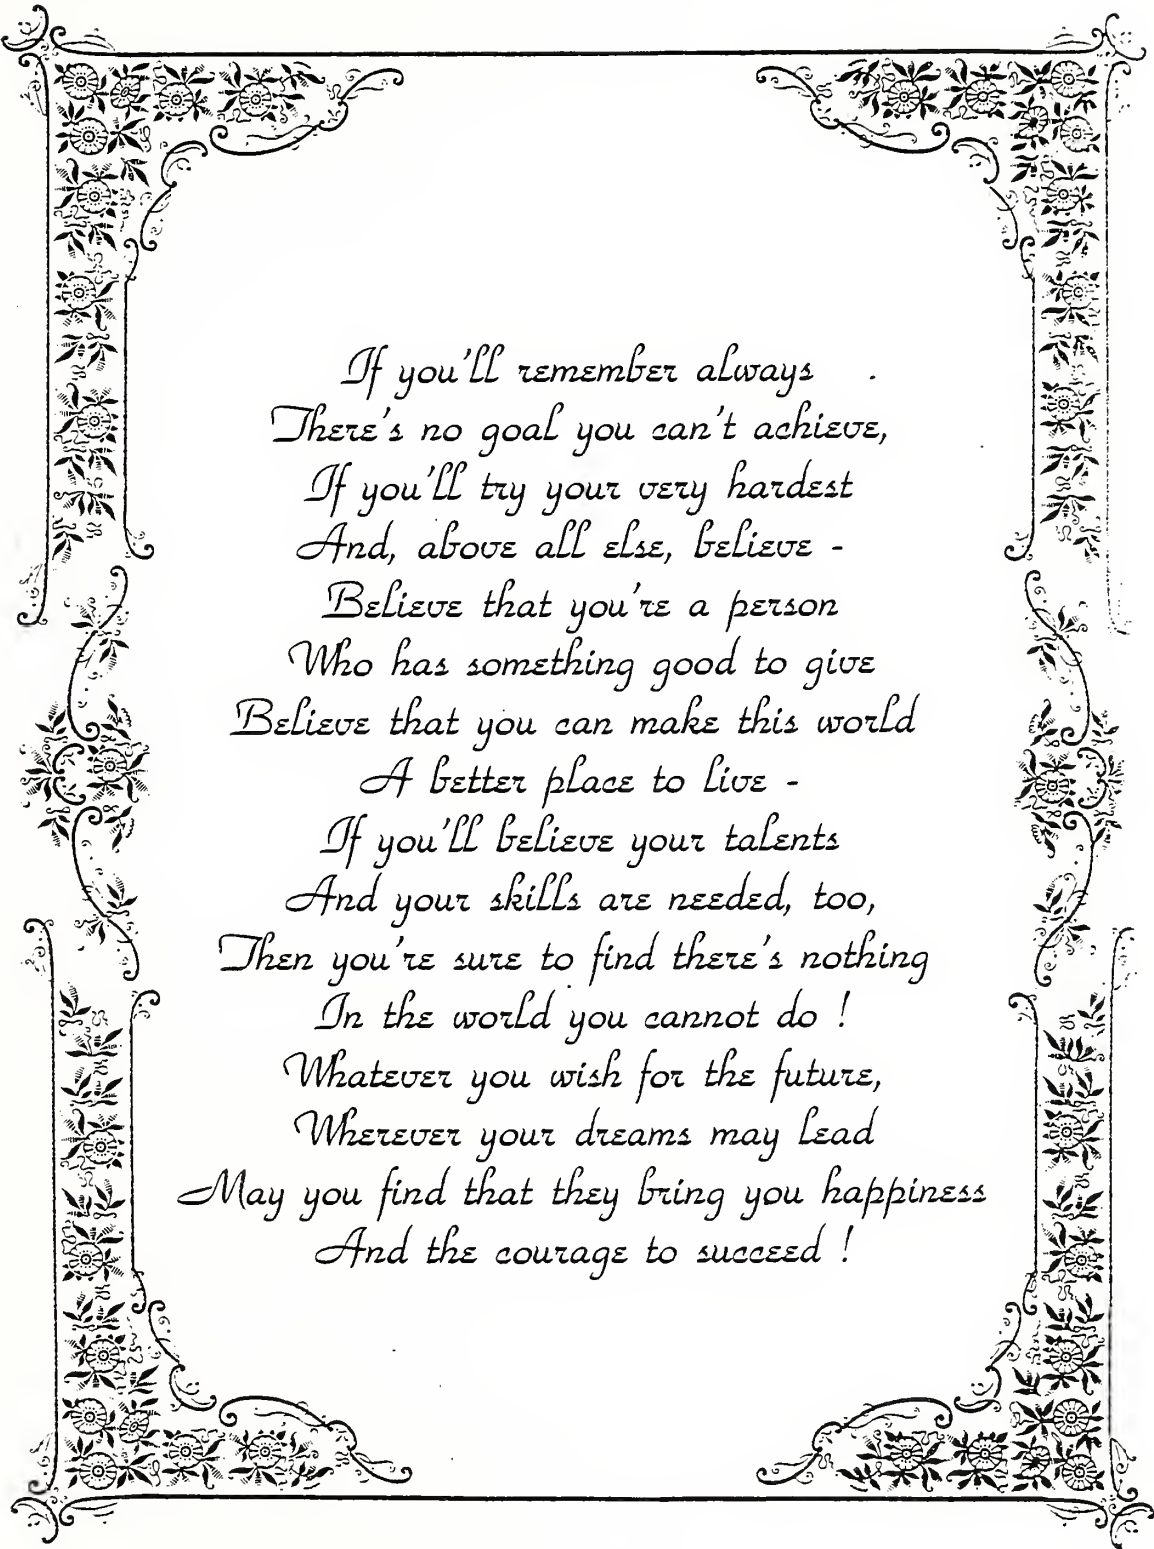

Aftermath of the fire of 1871

The Chicago fire of 1871, on October 8 and 9, completely destroyed the college building, as well as teaching materials and records. Lectures were resumed only a few days later, using a small ampitheather in the top of the County Hospital building.

Rush Medical College Library, 1923

Obviously this library scene differs greatly from that seen in the current facility, not least of all in the clothing and gender of the students. At this time the library was located in the building completed in 1876, but it would move the next year to the new Rawson building.

*If you'll remember always
There's no goal you can't achieve,
If you'll try your very hardest
And, above all else, believe -
Believe that you're a person
Who has something good to give
Believe that you can make this world
A better place to live -
If you'll believe your talents
And your skills are needed, too,
Then you're sure to find there's nothing
In the world you cannot do !
Whatever you wish for the future,
Wherever your dreams may lead
May you find that they bring you happiness
And the courage to succeed !*

RUSH MEDICAL COLLEGE

THE ALUMNI ASSOCIATION
OF RUSH MEDICAL COLLEGE

March 18, 1994

Congratulations class of 1994! You've made it! I hope the transition from student to physician will go smoothly and that each of you will enjoy your residencies.

As president of the Alumni Association of Rush Medical College, I would like to welcome you to the Rush Alumni family as our newest members. We are thrilled and hope that you will be committed and willing to serve your alma mater.

As you receive your diplomas, you will join a proud tradition and a network of some of the finest academics and physicians in medicine today. I wish you the best of everything.

Sincerely,

Richard E. Melcher, M.D. '75

From the Editors ...

Thanks for all
the memories!
Good luck next year
and in the years
to come.
Rynn

Hope you enjoy
the book!
The last 4 years have been
great!
I'll miss you & Good Luck...
Lisa

Dear Friends/Colleagues in the Class of '94,
One of the great fringe benefits of the medical profession are
the wonderful friends one meets along the way. That makes parting
company now so tough that I can't think of anything more
profound to say than a few well-worn phrases - So know
that there will always be a warm place in my heart for
all of you:
Goodbye, good luck, godspeed, and truly I
hope to see you around!

Phil Kober
